

Merry Christmas!

This holiday season we are celebrating how precious life is, and our new grandson, Mason. It was a very busy year. ☺

Our parents are working through serious health concerns. They're doing well now. We're praying for family & friends who lost loved ones, and for our service men and women. We appreciate their sacrifice & hard work for our freedom.

We thank God for wonderful children, and brilliant grandchildren. We're thankful for you, our family and friends. You are such a blessing in our lives. We're grateful for a business that helps people become healthier and defend themselves from, or prevent disease. In '10 we spent a lot of time with parents, children, grandchildren and friends. We're looking forward to the New Year.

← I was going to fix this pic, but this is our life & we love it.

Our son Tony and his wife Ashley are very busy working, taking care of each other and their three wonderful babies. Hayley, 6, Samantha, 4 in Jan, and our newest little angel, Mason, 7 mos. They are so busy, but always have time for all of us to get together at their beautiful home. They have a child-proof house, so we can party with lots of toys for all of these gorgeous babies. Their huge dog Rellik is more like a little pony, and great with kids. ☺

Aimee lives in So. Beach Miami, and loves tropical life. She's singing, event planning, and managing fire walking/spinning events. Ashlynn, 14 and can't wait to get her drivers permit. She's taking pre-college courses this year, so she can attend Business College next year. She loves school, dance, softball, and somehow manages to stay on the honor roll with her busy schedule.

Andra has moved to Woodbury so Trystan can attend an Autism center. They have never had a child go through courses as fast as him. She works with the Wildlife Conservation Society and her work was featured in National Geographic in November! Sylas and Trystan are growing so fast, learning new skills every day. A children's book Andra illustrated has just been published.

Sheryl was diagnosed with Stage 2 Lymphedema in her right arm. They said she's had it a while, and are amazed it doesn't control her life. It's a blockage of lymph fluid, probably caused by surgery or trauma to the body. They say it's inoperable, incurable, and hospitalize people for it periodically. She's managing it with massage, physical therapy, prayer and powerful natural supplementation. Removing toxins from her body is the main focus. Shaklee has a lot of weapons she can use to fight it. She's happy they came out with a natural Cholesterol inhibitor.

Marty is still active with table tennis, but has moved his trophies to accommodate a very important one. "Best Grandpa". The Grandpa trophy is front and center of all of the trophies from business, table tennis and diving. His table tennis is getting better every year. He thinks Vivix is helping him stay in the game. It strengthens his immune system, helps detox, slows aging, speeds mental processes – 1 tsp equals the Resveratrol in 100 glasses of red wine, and is 10 x stronger than Resveratrol alone. The new Energy Chews definitely give him an advantage – Billy Demong used them to win Gold medals. :D

We're praying this for you and your family this Christmas and New Year:

"The Lord bless you and keep you; the Lord make His face shine on you and be gracious to you... and give you peace" (Numbers 6:24-26)

***Merry Christmas and a very Happy New Year!
Much Love, Marty & Sheryl Turner***
